Acoustic Cotton LFC

Category: *Low Frequency Control*
Technical Data Sheet

AC-LFC consistently outperforms conventional low frequency control products. AC-LFC is comprised of cotton fibers and is Class A Nonflammable. AC-LFC can be installed in corners and behind projection screens. AC-LFC can also be used as a hanging baffle in bass heavy areas. Contact us to discuss your project.

Applications:

- Corner Treatment
- Absorb Bass Behind Projection Screens
- Hanging Baffles
- Above Ceiling Tiles

Benefits:

- Highest Performance LF Control
- Eliminates LF Buildup in Corners
- Easy Installation
- Low Cost
- Class A Nonflammable

Properties:

Color..... Charcoal
 Size 2' X 4'
 Thickness..... 4"
 Installation..... Adhesive, Mechanical Fasteners
 Flammability..... ASTM E-84 Class 1-A
 Weight..... 1.5 lbs. per ft³

Frequency	125Hz	250Hz	500Hz	1KHz	2KHz	4KHz	NRC
4"	0.97	1.37	1.23	1.05	1.00	1.01	1.15
