

Waffle Isolation Pad is used underneath heavy objects that need to be isolated from their environment. Furnaces, HVAC Units, and Hot Tubs are among the uses for this high tech isolation system. Contact a specialist at Cascade Audio Engineering to determine the proper amount of material required and the specified durometer of the pad.

Applications:

- Compressor Units
- HVAC Components
- Hot Tubs
- Heavy Machinery

Benefits:

- Cost Effective
- Efficient
- Versatile
- Easy Installation

Properties:

Color	Black
Size	18" x 18" (81 Squares)
Thickness.....	3/4"
Installation.....	SB-SA-29
Material	Natural Rubber

Pads may be stacked with 16 gauge shims between layers for increased deflection (For example, 3 layers offer 3 times the deflection).
